

DEPARTMENT OF ENVIRONMENTAL QUALITY
AIR QUALITY DIVISION
ACTIVITY REPORT: Self Initiated Inspection

U23161170437269

FACILITY: Bridgewater		SRN / ID: U231611704
LOCATION: 2510 Snow Rd, Lansing		DISTRICT: Lansing
CITY: Lansing		COUNTY: EATON
CONTACT: Andy Smith , First Shift Material Supervisor		ACTIVITY DATE: 10/20/2016
STAFF: Michelle Luplow	COMPLIANCE STATUS: Compliance	SOURCE CLASS:
SUBJECT: Self-initiated inspection as part of a survey of facilities within the Canal to Lansing Road areas.		
RESOLVED COMPLAINTS:		

Inspected by: Michelle Luplow

Personnel Present: Andy Smith (asmith@anm-us.com), First Shift Material Supervisor

Purpose:

Conduct an unannounced, self-initiated compliance inspection by determining compliance with Michigan Air Pollution Control Rules, but also as part of a survey of the Canal Rd-Creyts Rd-Lansing Rd facilities in the area.

Facility Background/Regulatory Overview:

Bridgewater rents a portion of the building behind Faurecia (2510 Snow Rd) where ANM is contracted by Bridgewater to construct and warehouse seats and steel parts for GM. ANM is a company that specializes in various industries, but for this particular job they use 8 machines two screw or drill parts together for assembling seats for GM vehicles. These machines are exempt from a PTI Rule 336.1285(I)(vi).

Inspection:

At approximately 10:15 a.m. on October 20, 2016, I met with Andy Smith, First Shift Material Supervisor for ANM. I explained to him that I was there to do an inspection as part of a survey of the area. I provided him with a July 2014 Permit to Install Exemption handbook.

A. Smith said that they run 3 shifts (24 hours), 5 days per week, with occasional Saturday shifts. The only equipment present onsite are the 8 previously-mentioned machines used for screwing in parts and assembling seats for GM vehicles. There is also one natural gas air handling unit/heater to warm the building that is rated at 487,104 Btu/hr as is exempt from a Permit to Install under Rule 336.1282(b)(i).

ANM/Bridgewater appear to be in compliance with Michigan Air Pollution Control Rules at this time.
