none

All Violations Found During this Inspection including reoccurring:

none

Recent Complaints (within 2 years):

none

Inspection Key Concerns:

none

MAERS Reporting

NA

MAERS Emission Unit List

NA

Inspection Summary

They both escorted me to the mechanical section of the building which is located on the north-west side. We found the incinerator on the north end of the mechanical area. The incinerator is built into the wall of a room labeled MMB1101B which is right next to the elevator. This incinerator is still installed but was clearly not being operated; removal would take considerable reconstruction. The room was only about 3ft by 5 ft and was being used for storage. I feel comfortable stating this device is still installed but is non-operational thus been removed and the permit is no longer valid. The current phone number for this site is 810-232-8153.

The notice of voidance will be sent to:
Mr. Larry Koehler
Executive Director of Physical Plant
923 East Kearsley Street
Flint, MI 48503

The following statement will be included in the voidance letter:

Please be aware that future use of this device will trigger compliance requirements with one or more of the following federal regulations:

1. Title 40 Code of Federal Regulations Part 60, Subpart Cb—Emissions Guidelines And Compliance Times For Large Municipal Waste Combustors That Are Constructed On Or Before September 20, 1994
2. Title 40 Code of Federal Regulations Part 60, Subpart E—Standards Of Performance For Incinerators
3. Title 40 Code of Federal Regulations Part 60, Subpart BBBB—Emission Guidelines And Compliance Times For Small Municipal Waste Combustion Units Constructed On Or Before August 30, 1999
4. Title 40 Code of Federal Regulations Part 60, Subpart CCCC—Standards Of Performance For Commercial And Industrial Solid Waste Incineration Units
5. Title 40 Code of Federal Regulations Part 60, Subpart DDDD—Emissions Guidelines And Compliance Times For Commercial And Industrial Solid Waste Incineration Units
6. Title 40 Code of Federal Regulations Part 60, Subpart FFFF—Emission Guidelines And Compliance Times For Other Solid Waste Incineration Units That Commenced Construction On Or Before December 9, 2004

This report will be used to void permit 22-68I in accordance with MDEQ memo Procedure for Voiding Permits to Install, dated June 7, 1999.
