Dear Mr. Cerriteno:

VIOLATION NOTICE

On July 26, 2018, the Department of Environmental Quality (DEQ), Air Quality Division (AQD), conducted an inspection of JCJ Painting located at 1445 Fuller Avenue SE, Grand Rapids, Michigan. The purpose of this inspection was to determine JCJ Painting's compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the Air Pollution Control Rules; and to investigate a complaint received on July 13, 2018 regarding lacquer emissions.

During the inspection, staff observed the following:

Process Description	Rule/Permit Condition Violated	Comments
Wood stain/lacquer operations	Rule 201	Failure to obtain a Permit to Install.

During this inspection, it was noted that JCJ Painting had commenced operation of an unpermitted process at this facility. The AQD staff advised JCJ Painting on July 26, 2018, that this is a violation of Rule 201 of Act 451.

A program for compliance may include utilizing the Rule 287(2)(c) exemption, which was discussed during the inspection. The exemption requires coating usage less than 200 gallons per month and recordkeeping to verify coating use.

Please initiate actions necessary to correct the cited violation and submit a written response to this Violation Notice by August 23, 2018 (which coincides with 21 calendar days from the date of this letter). The written response should include: the dates the violation occurred; an explanation of the causes and duration of the violation; whether the violation is ongoing; a summary of the actions that have been taken and are proposed to be taken to correct the violation and the dates by which these actions will take place; and what steps are being taken to prevent a reoccurrence.
