AIR QUALITY DIVISION
ACTIVITY REPORT: Self Initiated Inspection

U5014742926052

FACILITY: Android		SRN / ID: U50147429
LOCATION: 27767 George Merrelli Dr., Warren		DISTRICT: Southeast Michigan
CITY: Warren		COUNTY: MACOMB
CONTACT:		ACTIVITY DATE: 07/22/2014
STAFF: Sebastian Kallumkal	COMPLIANCE STATUS: Compliance	SOURCE CLASS:
SUBJECT: Onsite Inspection		
RESOLVED COMPLAINTS:		

On ~~Monday~~ July 21, 2014, I conducted a self-initiated inspection at Android located at 27767 George Merrelli Drive, Warren, Michigan. The purpose of the inspection was to verify facility's compliance with requirements of Article II, Air Pollution Control, Part 55 of Act 451 of 1994.

I visited the facility initially on Tuesday, July 22, 2014 at about 2:00 PM. I was unable to conduct the inspection on this day because the plant manager, Gus Bellomo, told me that due to the sensitive nature of their products he would need approval from upper manager. Later on the same day, he informed me that I would be able to inspect the facility.

On next day, July 22, 2014, at about 10:30 AM, I visited the facility. I met Ms. Terissa Hauser, Payroll/HR Admin. I introduced myself and stated the purpose of the inspection. During pre-inspection meeting, she described the operations at the facility. Android is contractor for Chrysler Corporation. It is involved in the assembling of engines, suspensions, tires on wheels, etc. It conducts complete testing for engine's electrical and electronic connections.

Later Ms. Hauser accompanied me for an inspection of the facility. All electronic connections are added to the engines. Struts, springs, etc. are connected to automobile suspensions. An adhesive is coated on to the wheels and tires using robotic arms. The facility has one emergency generator.

The facility operates two shifts during Monday through Friday.

Conclusion: The facility appears to be in compliance with all applicable air quality regulations.
