Dear Jeff,

On September 11, 2023, an inspection was performed at 33360 Groesbeck Hwy. Fraser, MI. We were in the process of waiting for a new dumpster to be delivered. Runco was backed up with their deliveries, which doesn't excuse the waste being in the warehouse and trucks. The violation was fixed that day and DES sent pictures to confirm that it was handled. Attached is our training document that was signed by our employees, stating that they understand how to properly label and dispose of asbestos waste. We would like to do what we can to stay in good standings with EGLE. If you have any questions, comments, or concerns please feel free to reach out.
