The purpose of this inspection was to determine compliance with the requirements of Title 40 of the Code of Federal Regulations, Part 61, National Emission Standards for Hazardous Air Pollutants, Subpart M, and Rule 942 of Part 55, Air Pollution Control of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended.

According to our investigation, Ms. Meredith DiNardi owns the facility and Belonga Excavating LLC performed the demolition activities at the facility. The National Emission Standard for Asbestos holds both the owner and operator equally liable for violations.

During the inspection, staff observed the following:

	40 CFR 61.145(a)	Failure to thoroughly inspect structure for asbestos containing material(s) prior to demolition

Please initiate actions necessary to correct the cited violations and submit a written response to this Violation Notice by June 14, 2018, (which coincides with 21 calendar days from the date of this letter). The written response should include: the dates the violations occurred; an explanation of the causes and duration of the violations; whether the violations are ongoing; a summary of the actions that have been taken and are proposed to be taken to correct the violations and the dates by which these actions will take place; and what steps are being taken to prevent a reoccurrence.

If you believe the above observations or statements are inaccurate or do not constitute violations of the applicable legal requirements cited, please provide appropriate factual information to explain your position.
