SUBJECT: Verification of Equipment Removal - Permit Void Request Sent Hillman Elementary School 245 Third St, Hillman Michigan		
RESOLVED COMPLAINTS:		

VERIFICATION OF EQUIPMENT REMOVAL-

On Tuesday, October 24, 2017, Gaylord district staff arrived onsite to conduct a site inspection for a permitted waste wood boiler/burner at the Hillman Elementary School located at 245 Third St, Hillman, Montmorency county, Michigan (M3982). The referenced equipment was permitted under Permit to install 415-82. A google earth search earlier in the month had indicated that the equipment was still on site and was visible to the west of the schools southern parking lot.

Discussions with the school administrative staff indicated that the equipment had been removed the summer of 2017, and this was confirmed by school district maintenance staff who indicated that the permitted equipment had not been in use since as early as 1993 and as late as 1995.

Upon returning to the office later that same morning, a request to void the referenced permit was sent electronically to the AQD permit section staff, and request3d that the void letter be sent to Mr. Carl Seiter, Superintendent of Hillman community Schools, 26042 M-32 South, Hillman Michigan 49746.
