 ACTIVITY REPORT: Self Initiated Inspection

U6313249823475

FACILITY: A & M Collision		SRN / ID: U63132498
LOCATION: 24792 Crestview Ct.		DISTRICT: Southeast Michigan
CITY: Farmington Hills		COUNTY: OAKLAND
CONTACT:		ACTIVITY DATE: 10/08/2013
STAFF: Joyce Zhu	COMPLIANCE STATUS:	SOURCE CLASS:
SUBJECT: The facility has been moved. There is not much air quality concern in the new facility, Mail-Tek, Inc.		
RESOLVED COMPLAINTS:		

On 10/8, I conducted a self-initiated inspection at Mail-Tek, Inc., located on 24792 Crestview Ct., Farmington Hills. I inspect the facility because there has been an air use permit (No. 801-80) associated with the address; & there has not been any air quality inspection since 1981. The permit was issued to A & M Collision for a spray paint operation. I arrived at the site around 1:08 PM. I introduced myself to Mr. Richard Del Pizzo from the company & explained the purpose of the inspection. Mr. Pizzo told me that he was not aware of A & M Collision; but Mail-Tek, Inc. had moved to this location for over four years. Mail-Tek provides bulk-mail service to the U.S. Postal Service. During the inspection, I saw large quantity of prints inserted to the envelopes before he put stamps. I didn't see any air quality concerned activities onsite. I'll ask Lansing to void the permit
