

## **Violation Notice Response**

SRN: U632407031, Oakland County

To:

Jeff Benya, Asbestos Unit

Jason Wolf, Enforcement Unit

**Date of violation: 12/9/2024**

-The roof project began on 12/9 and concluded on 12/10

**Explanation of causes:**

-The sales representative and install team were not aware of the possibility of asbestos being present. Neither party has ever experienced this nor has Oakes roofing in the past. The duration of the violations existed from the starting date of 12/9 thru the cleanup date of 12/12.

**Violation ongoing:**

- No, the violations were abated after the clean up date of 12/9

**Summary of actions:**

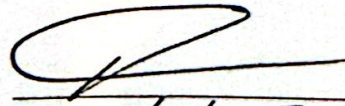

1. Clean up process stopped when made aware of asbestos
2. Contacted certified asbestos removal companies for assistance
3. Hired REST Environmental to complete the removal process
4. Clean up was completed on 12/12

**Steps to prevent:**

1. Sales reps are required to obtain training to identify possible asbestos material
2. Sales reps will work with REST Environmental if testing is needed
3. If Asbestos is present Oakes Roofing will work with REST to complete

I, Kevon Ventimiglia, have received and understand the "Understanding NESHAP" fact sheet.
