Lansing, MI 48909-7760

Dear Craig:

We received a letter from Stannard Township dated December 23, 2024, saying that we needed to demolish the building located at 14967 M28 as soon as possible because it was unsafe and there had been reports that kids were sneaking into the building.

We are not in the regular business of demolishing buildings, so we began this process immediately not aware that we needed to file a Notification of Intent to Demolish. Once I talked with Dale from Upper Peninsula Abatement, he told us we needed to file this form.

As soon as we knew that we were in violation I contacted my office and told them to prepare the Notification of Intent to Demolish which was emailed over to you January 10th, 2025.

Going forward we will make sure this form is filed if we ever demolish another building, and we will make sure to contact the necessary professionals in the correct steps that need to be taken.

Thank you for your understanding in this oversite.

Sincerely,

Peter Bultsma
