| SUBJECT: Self Initiated inspection of permitted Facility - N3680, BJ Services Company, 1245 Anna Street, Gaylord, MI. Permit No. 327-97C - Property sold and equipment removed - Void Requested. Sgl | | |
| RESOLVED COMPLAINTS: | | |

On June 20, 2018, AQD District Staff conducted a self-initiated site inspection of the BJ Services Company (N3680). The referenced Facility at the time of permitting was located at 1245 Anna Street, Gaylord Michigan. It was permitted on June 22, 2004 (327-97C) for the following pieces of equipment:

- Three dry sand storage silos and associated dispensing bins and material handling equipment
- Two bulk dry cement storage tanks and associated material handling equipment
- One bulk fly ash storage tank and associated material handling equipment, and
- Two bulk cement batch blenders and associated material handling equipment controlled by a baghouse.

Upon arrival, District Staff noted that the location is now occupied by Baker Hughes/Baker Petrolite. Discussions with Mr. Dennis Selee (sp) indicated that BJ Services Company removed all of the permitted equipment at the time of property sale (2013-2014), and that the Permit 327-97C can be voided. A request for voidance of the permit has been made electronically by District Staff. sgl
