Dear Ms. Bascos, Mr. Palazzolo, and Mr. Bennett:

VIOLATION NOTICE

On September 14, 2016, the Department of Environmental Quality (DEQ), Air Quality Division (AQD), performed an asbestos inspection at 11719 Camden Avenue, Detroit, Wayne County, Michigan. The purpose of this inspection was to determine compliance with the requirements of Title 40 of the Code of Federal Regulations, Part 61, Subpart M (National Emission Standard for Asbestos), and Rule 942 of Part 55, Air Pollution Control of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended.

According to our investigation, the Detroit Land Bank Authority owns the properties and P.A.S.I. performed the abatement activities at the site, and the Detroit Building Authority oversees the City of Detroit's demolition program. The vacant residence was abated as part of a project to remove blight within the City of Detroit. The National Emission Standard for Asbestos holds both the owner and operator equally liable for violations.

During the investigation, DEQ AQD staff, Mr. Jeremiah Brown and Ms. Karen Kajiya-Mills observed the following:

The subject property had been abated and regulated asbestos-containing material (RACM) was discovered at the property in the form of duct wrap on a piece of heat duct in the basement.
