

NOTICE of AIR PERMIT COMMENT PERIOD and PUBLIC HEARING

The Michigan Department of Environment, Great Lakes, and Energy (EGLE) is holding a public comment period and a virtual public hearing to allow the public the opportunity to comment on the proposed conditional approval of an air permit.

There is a public comment period from June 22, 2022, until August 10, 2022, and a virtual public hearing on August 1, 2022 for:

Company: Marathon Petroleum Company LP located at 1001 South Oakwood Boulevard, Detroit, Michigan

What Marathon Petroleum Company LP wants to do: Application No. APP-2022-0004 is for optimizing the sulfur production at the two sulfur recovery units at the facility.

It has been preliminarily determined that the permit modifications will not violate any of EGLE's rules nor the National Ambient Air Quality Standards. The facility's impact will not exceed the available increments for sulfur dioxide, particulate matter less than or equal to ten microns in diameter, and particulate matter less than or equal to 2.5 microns in diameter.

Additionally, the permit modifications will require revisions to Renewable Operating Permit (ROP) No. MI-ROP-A9831-2012c (SRN A9831). This public comment period meets the public participation requirements for a future administrative amendment to the ROP.

Provide comment in any of these ways by August 10, 2022:

- **By email** to EGLE-AQD-PTIPublicComments@Michigan.gov
- **By voicemail** by calling 517-284-0900
