

## NOTICE of AIR PERMIT COMMENT PERIOD and PUBLIC HEARING

The Michigan Department of Environment, Great Lakes, and Energy (EGLE) is holding a public comment period and a virtual public hearing to allow the public the opportunity to comment on the proposed conditional approval of an air permit.

**There is a public comment period from June 26, until August 20, 2024, and a virtual public hearing on August 8, 2024 for:**

**Company:** Warren Waste Water Treatment Plant (Warren WWTP) located at 32360 Warkop Avenue, Warren, Michigan

**What Warren WWTP wants to do:** Application No. APP-2022-0192 is for a new sewage sludge disposal process to replace the existing sewage sludge incinerator.

**Technical Details:** It has been preliminarily determined that the installation of new equipment will not violate any of EGLE's rules nor the National Ambient Air Quality Standards. The facility's impact will not exceed the available increments for nitrogen oxides and particulate matter less than or equal to 2.5 microns in diameter.

Additionally, the installation of new equipment will require revisions to Renewable Operating Permit (ROP) No. [MI-ROP-B1792-2021](#) (SRN B1792). This public comment period meets the public participation requirements for a future administrative amendment to the ROP.
