

## NOTICE of AIR PERMIT COMMENT PERIOD

The Michigan Department of Environment, Great Lakes, and Energy (EGLE) is holding a public comment period and a virtual public hearing, if requested, to allow the public the opportunity to comment on the proposed conditional approval of an air permit.

**There is a public comment period from November 6, 2024, until December 16, 2024, and a virtual public hearing, if requested, on December 11, 2024, for:**

**Company:** Consumers Energy Company - Zeeland Generating Station located at 425 North Fairview Road, Zeeland, Michigan

**What is open for comment:** Application No. APP-2024-0096 is a request to install equipment upgrades to two existing simple cycle combustion turbines to increase fuel efficiency and electrical output.

**Technical details:** The public comment period and, if requested, virtual public hearing is to allow all interested parties an opportunity to comment on the proposed conditional approval of a Permit to Install (PTI). It has been preliminarily determined that the proposed modifications to the existing turbines will not violate any of EGLE's rules or the National Ambient Air Quality Standards.

This proposal is subject to the state and federal Prevention of Significant Deterioration (PSD) rules and regulations for a major modification to an existing major stationary source based on the emissions of nitrogen oxide (NO<sub>x</sub>), particulate matter less than or equal to 10 microns in diameter (PM<sub>10</sub>), particulate matter less than or equal to 2.5 microns in diameter (PM<sub>2.5</sub>), and greenhouse gases (CO<sub>2e</sub>). The proposed turbine upgrades will not exceed the available increment for any pollutant.

The proposed modifications will require revisions to Renewable Operating Permit (ROP) No. [MI-ROP-N6521-2020a](#) (SRN N6521). This public comment period meets the public participation requirements for a future administrative amendment to the ROP.
