

NOTICE of AIR PERMIT COMMENT PERIOD

The Michigan Department of Environment, Great Lakes, and Energy (EGLE) is holding a public comment period and a virtual public hearing, if requested, to allow the public the opportunity to comment on the proposed conditional approval of an air permit.

The public comment period is open from December 10, 2024, until January 27, 2025, with a virtual public hearing, if requested, on January 16, 2025, for:

Company: Michigan Potash Operating, LLC proposed to be located at Schofield Road and 120th Avenue, Ewart Township, Osceola County, Michigan

What the company wants to do: Air permit application No. APP-2024-0182 is a request to build and operate a new salt and potash processing facility.

Technical details:

It has been preliminarily determined that the company's request to install a new salt and potash processing facility will not violate EGLE's rules or the National Ambient Air Quality Standards. The facility's impact will not exceed the available increments for sulfur dioxide, nitrogen oxides, particulate matter less than or equal to ten microns in diameter, and particulate matter less than or equal to 2.5 microns in diameter.
