255 Marion Avenue
River Rouge, Michigan 48218

Dear U. Sam Amer:

This letter is in reference to your Permit to Install (PTI) application, identified as No. APP-2024-0195, State Registration Number M4547. The application was received on August 16, 2024, for the installation of a new sweat furnace controlled by a regenerative thermal oxidizer to be located at 255 Marion Avenue in River Rouge, Michigan.

Review of your PTI application is complete. We have announced a public comment period as required by state and federal regulations, on the intent of the Michigan Department of Environment, Great Lakes, and Energy (EGLE) to approve the proposed permit. The public comment period will begin on January 15, 2025, and will end on March 3, 2025. A virtual informational session and public hearing have been scheduled on February 20, 2025; however, they will be held only if requested by February 13, 2025. You may submit comments during the comment period and are encouraged to appear at the virtual informational session and public hearing, if held, on behalf of your PTI application.

After resolving any issues raised during the public comment period and/or the virtual hearing, if held, a final decision will be made on your PTI application.

By law, construction of the proposed process should not begin until you receive an approved PTI. *This letter is not an approved permit to install* and only references a proposed action on your PTI application.

Enclosed are copies of the proposed permit conditions, "Notice of Air Pollution Comment Period and Public Hearing," "Proposed Project Summary," and the "Technical Fact Sheet" regarding our analysis of your proposed project.

U. Sam Amer
