

NOTICE of AIR PERMIT COMMENT PERIOD and PUBLIC HEARING

The Michigan Department of Environment, Great Lakes, and Energy (EGLE) is holding a public comment period and a public hearing to allow the public the opportunity to comment on the proposed conditional approval of three air permits.

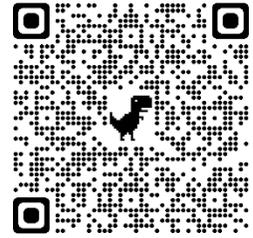

There is a public comment period from April 17, until June 3, 2024, and a public hearing on May 22, 2024, for:

Companies: Marathon Petroleum Company LP (Marathon – APP-2024-0053), Air Products and Chemicals, Inc. (Air Products – APP-2024-0055), and MPLX Terminals LLC (MPLX – APP-2024-0054)

What is being requested? The request, called the Detroit Permitting Project, is to allow Marathon to operate at its physical capacity; add air pollution limits at Marathon and Air Products; implement voluntary pollution control projects at Marathon; and increase the height of the vapor recovery unit stack at MPLX.

Technical Details: The public comment period and public hearing are to allow all interested parties the opportunity to comment on the three proposed permits. It has been preliminarily determined that the requested changes will not violate any of EGLE's rules nor the National Ambient Air Quality Standards. The facility's impact will not exceed the Significant Impact Levels for sulfur dioxide, nitrogen oxides, carbon monoxide, particulate matter less than or equal to ten microns in diameter, and particulate matter less than or equal to 2.5 microns in diameter.

Additionally, the permit modifications will require revisions to Renewable Operating Permit (ROP) No. [MI-ROP-A9831-2012c](#) (SRN A9831). This public comment period meets the public participation requirements for a future administrative amendment to the ROP.
