**Subject:** USEPA Comments RE: 45-day EPA ROP Review: City of Wyandotte Municipal Power Plant - B2132

Hello everyone,

Here is our comment on the Wyandotte Municipal Services proposed ROP renewal. Thank you, Steve, for your quick response on this, and let me know if you have any questions.

Thanks!

The U.S. Environmental Protection Agency has reviewed the proposed Renewable Operating Permit (ROP) for Wyandotte Municipal Services, State Registration Number B2132, located in Wyandotte, Michigan. To ensure that the source meets Federal Clean Air Act requirements, that the permit will provide necessary information so that the basis of the permit decision is transparent and readily accessible to the public, and that the permit record provides adequate support for the decision, EPA has the following comment:

EUUNIT7BLR: In order to clearly identify the origin and authority and permanency of the federal Consent Decree provisions established in Permit-to-Install 2-16, please review and add Act 451, Section 324.5503(b) as an underlying applicable requirement and footnote 3 to these provisions from PTI 2-16 as appropriate.
