FACILITY: Romancky Brothers		SRN / ID: A6012
LOCATION: 1612 M76, SAINT HELEN		DISTRICT: Gaylord
CITY: SAINT HELEN		COUNTY: ROSCOMMON
CONTACT:		ACTIVITY DATE: 08/14/2018
STAFF: Sharon LeBlanc	COMPLIANCE STATUS:	SOURCE CLASS: MINOR
SUBJECT: Self Initiated site inspection for permitted concrete batch plant in St. Helen, Michigan - Permit No. 432-81 request for void sent electronically on 8/20/2018.		
RESOLVED COMPLAINTS:		

On Tuesday, August 14, 2018, AQD District Staff conducted self-initiated site inspections for the following permitted Roscommon County facilities:

- N1444 - CarGem Corp,
- B7516 – Bella Concrete Construction LLC, and
- N1394 – Carrick Concrete

Confirmation was made with either the permittee, the present property owner, or adjacent properties that the permitted equipment associated with the businesses could be voided. Void requests were sent electronically for the three referenced on Wednesday, August 15, 2018.

- A6012 - Romancky Brothers.

In addition, AQD District Staff also did a drive by of a permitted concrete batch plant permitted to Robert Romancky located at the intersection of Sutherby and M-76, St. Helen, Michigan. the referenced permit No. 432-81 was issued for a dust collector for a cement batch plant on July 28, 1981.

The Facility permitted as 1612 Rosedale, St. Helen, Michigan has an office, though the batch plant is rusted, with small trees growing through portions of the conveyor system. Staff left a business card, and a voice mail message.

On Monday August 20, 2018, staff spoke with Mr. Robert Romancky Jr, present owner/operator of the Facility. He indicated that the permit for the concrete batch plant can be voided, the equipment would need significant work before it could ever be put back into operation. When asked about a permit for a waste oil furnace (482-88), he indicated that the furnace was still in use, so the permit will not be included in the void request. The void request was sent electronically on August 20, 2018. The void is to be sent to:
