

GRETCHEN WHITMER  
GOVERNOR

STATE OF MICHIGAN  
DEPARTMENT OF  
ENVIRONMENT, GREAT LAKES, AND ENERGY  
DETROIT DISTRICT OFFICE

LIESL EICHLER CLARK  
DIRECTOR

July 2, 2019

Mr. LaDale Combs  
AK Steel Dearborn Works  
4001 Miller Rd.  
Dearborn, MI 48121-1669

SRN: A8640, Wayne County

Dear Mr. Combs:

**VIOLATION NOTICE**

On April 23, 2019, the Department of Environment, Great Lakes, and Energy (EGLE), Air Quality Division (AQD), conducted an investigation in response to a citizen complaint regarding fallout on the complainant's home which occurred on April 18, 2019. The investigation included an evaluation of AK Steel Dearborn Works' ("AK Steel") compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the Air Pollution Control Rules; and the conditions of Renewable Operating Permit (ROP) number MI-ROP-A8640-2016a.

During the inspection, AQD staff collected a sample of the fallout off the complainant's home and sent the sample to a lab for analysis. The results showed the sample to consist primarily (about 50%) of metallic particles which respond to a magnet, in addition to many quartz-like and glass-like particles. The analysis determined the sample to be consistent with steel manufacturing. These sample results are attached to this letter. In addition, AK Steel reported three semi-clean bleeder openings on April 18, 2019, between the hours of 3:34 AM and 3:37 PM, during which time winds were primarily from the southwest, placing the complainant's home downwind of AK Steel during the approximate time the fallout occurred.

As a result, AQD staff has determined that AK Steel was in violation of the following:

Process Description	Rule/Permit Condition Violated	Comments
EUCFURNACE	ROP No. MI-ROP-A8640-2016a, General Condition 12(b), Section 1;  R 336.1901(b)	Detection of fallout beyond the facility's property line, attributable to the facility, of sufficient magnitude as to constitute an unreasonable interference with the comfortable enjoyment of life and property.

Mr. LaDale Combs

July 2, 2019

Based on the analysis of the fallout sample, wind direction, and operations at AK Steel at the time the incident occurred, AQD staff has determined that AK Steel was the most likely source of the fallout. In the professional judgment of AQD staff, the fallout was sufficient to constitute a violation of General Condition 12(b), Section 1 of ROP No. MI-ROP-A8640-2016a and R 336.1901(b): an "unreasonable interference with the comfortable enjoyment of life and property."

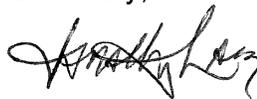

Please initiate actions necessary to correct the cited violation and submit a written response to this Violation Notice by July 23, 2019 (which coincides with 21 calendar days from the date of this letter). The written response should include: the dates the violation occurred; an explanation of the causes and duration of the violation; whether the violation is ongoing; a summary of the actions that have been taken and are proposed to be taken to correct the violation and the dates by which these actions will take place; and what steps are being taken to prevent a reoccurrence.

Please submit the written response to the EGLE, AQD, Detroit District, at 3058 West Grand Boulevard, Suite 2-300, Detroit, Michigan 48202 and submit a copy to Ms. Jenine Camilleri, Enforcement Unit Supervisor at EGLE, AQD, P.O. Box 30260, Lansing, Michigan 48909-7760.

If AK Steel believes the above observations or statements are inaccurate or do not constitute violations of the applicable legal requirements cited, please provide appropriate factual information to explain your position.

Thank you for your attention to resolving the violation cited above. If you have any questions regarding the violation or the actions necessary to bring this facility into compliance, please contact me at the number listed below.

Sincerely,

Jonathan Lamb  
Senior Environmental Quality Analyst  
Air Quality Division  
313-456-4683
