On 3/24/16 I visited the site of the former company Emerson Electric. A worker who was plowing out the parking lot said the company has been out of business for about 14 years. Presently the building is used for storage, no manufacturing operations occur at the site.

A review of Permit Cards shows the following PTIs still active: 242-83, 557-85, 187-91A, 753-93, 595-93, 588-91, and 587-91. A note will be sent to Ms. Sue Thelen in the Permit Section to void all PTIs for this facility.

The facility will be removed from the UP District Inspection Database.
