

November 7th, 2013

DEQ-AQD

NOV 14 2013

Mr. Chris Hare
 Michigan Department of Environmental Quality
 401 Ketchum St. Suite B
 Bay City, Michigan 48708

Saginaw Bay

RE: Follow up request to our original October 21st 2013 request for Extension of written response to the October 14th 2013 Notice of Violation: Revstone Metavation Vassar Foundry (SRN B2043).

This communication is in response to our November 7th telephone conversation with Kathy Brewer, DEQ – AQD Environmental Quality Analyst, regarding two violation notices related to pouring and cooling operations at the Vassar facility, specifically:

Process Description	Rule/Permit Condition Violated	Comments
Cupola furnace	Source-Wide Conditions B.I. Opacity limit 20%.	Opacity >20% at charge area due to process feed rate changes
Cupola furnace	Source-Wide Conditions B.I. Opacity limit 20%.	Opacity >20% due to melt down at end of day

Process Description	Rule/Permit Condition Violated	Comments
Metal Casting Cooling Area	Source-Wide Conditions B.I. Opacity limit 20%.	Opacity >20% from cooling roof vents.

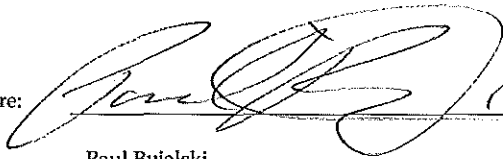

We ask that the DEQ grant an extension to the November 4th, 2013 response deadline for the following reasons listed below:

- Effective October 10th 2013, Metavation Vassar Foundry has ceased production and is closed. A potential sale is pending but not finalized and at this point we are uncertain of a decision date as to whether the sale will proceed. If the sale does not go forward, the facility will permanently close and no further production activities will occur.
- Per our November 7th telephone conversation with the Department, we ask that our extension be extended through the thirtieth day following the start of production if such production occurs. Start of production, as described in our November 7th phone conversation is defined as the date that the Cupola receives its first charge. Within that thirty day period, the facility will have adequate process and or engineering controls in place to address the above referenced violation notices.

If you have any questions regarding this extension request, please do not hesitate to contact me. I can be reached at (989) 823-3333 or via mobile phone at (989) 660-0294
