9-19-2018

Dear Rex,

We are in receipt of your letter dated August 29th, 2018.

We are hereby issuing our response:

The alleged violations all relate to the Astec ProSizer 3100 machine.

We had been acting under assumption that the impactor and screening operation were exempt from permitting requirements pursuant to rule 291.

In light of the MDEQ position on this issue, Lakeland is willing to discuss whether a permit is required for this machine.

In addition, Lakeland intends to comply with the 40 CFR part 60 subpart OOO requirements.

We will contact you to discuss the timing of the performance test required in 40 CFR part 60 subpart OOO.

As always, we appreciate your continued assistance.

Please contact me, Laura Williams, or Bruce Connell with Environmental Partners Inc. to discuss any questions or comments you might have.

Bruce can be reached at (616) 928-9130

We anticipate we will be connecting with you on various compliance issues.

Warmest Regards,

Laura Williams, Sales Manager
Lakeland Asphalt Corp.
