Todd Zynda, P.E. Michigan Department of Environmental Quality Air Quality Division Detroit Office-Cadillac Place 3058 W. Grand Blvd. Suite 2-300 Detroit, MI 48202

Mr. Todd Zynda,

We have received your letter regarding the violations that occurred on June 8, 2017 during the inspection. It has come to our attention that there has been a lack of documentation for the operation, inspection and maintenance of equipment.

Jo-Mar has taken the following steps of action to get documentation back on track and correct the cold cleaner to meet requirements. The pressure drop gauge has been hooked up and is functioning properly as of July 17, 2017. I have enclosed the following forms which will be used for all documentation. We are currently working on the cold cleaner and post operation procedures as required by August. If you have any further questions, please feel free to call.

Best Regards,

Jennifer Bizelow

Jennifer Bigelow
