

DEPARTMENT OF ENVIRONMENTAL QUALITY
AIR QUALITY DIVISION
ACTIVITY REPORT: On-site Inspection

D004059186

FACILITY: UPPER PENINSULA CONCRETE PIPE CO		SRN / ID: D0040
LOCATION: 6480 US 2 AND 41, ESCANABA		DISTRICT: Marquette
CITY: ESCANABA		COUNTY: DELTA
CONTACT: Jordan LaCombe , Plant Manager		ACTIVITY DATE: 07/22/2021
STAFF: Sydney Hewson	COMPLIANCE STATUS: Compliance	SOURCE CLASS: MINOR
SUBJECT: Onsite Inspection to verify compliance with PTI 93-76 and all other applicable state and federal air quality regulations		
RESOLVED COMPLAINTS:		

On July 22, 2021 I (Sydney Hewson) performed an onsite inspection of Upper Peninsula Concrete Pipe Co. located at 6480 US-2 in Escanaba MI. While onsite I met with Jordan LaCombe, Plant Manager at Upper Peninsula Concrete Pipe Company. Mr. LaCombe gave me a tour of the facility and showed me the permitted processes.

Facility Description:

UP Concrete Pipe Company manufactures precast stream crossings, precast storm pipes, manholes and catch basins. The Escanaba facility only manufacturers dry cast products, mostly manholes. They operate a dry cast batch cement plant and storage silo.

PTI 93-76:

Below is an outline of the requirements of PTI 93-76 and a summary of the facilities compliance:

During my inspection there were no visible particulate emissions from the cement handling operations or the cement silos. The facility uses water truck to suppress dust every two days.

Compliance determination:

At the time of my inspection, it appeared UP Concrete Co. was in compliance with PTI 93-76 and all other applicable state and federal air quality regulations.
