LOCATION: 378 BECK RD, HILLSDALE		DISTRICT: Jackson
CITY: HILLSDALE		COUNTY: HILLSDALE
CONTACT:		ACTIVITY DATE: 09/10/2019
STAFF: Brian Carley	COMPLIANCE STATUS: Compliance	
SUBJECT: Unannounced targeted inspection		SOURCE CLASS:
RESOLVED COMPLAINTS:		

Facility Contact: Kai Rasmussen, Controller
Phone: 517-849-2121
Email: KaiR@stillwellford.com

Purpose

I arrived at the facility to make an unannounced targeted inspection to determine compliance for Permit-to-Install (PTI) 898-90 for a waste oil furnace that is located in the service department. I met with Mr. Justin Groves, Service Manager, and explained the purpose of my visit.

Background

Ken Stillwell Ford Lincoln is an auto dealer that is permitted to operate a waste oil furnace in their service department for heat during cold weather.

Compliance Inspection

Mr. Groves took me to the service department where the waste oil furnace is located. The nameplate on the furnace stated that it was rated at 300,000 Btu/hr. They also only use waste oil that is generated on site. I determined that this furnace would be exempt under Rule 282(2)(b)(iv). I informed Mr. Groves that this furnace was now exempt and that they could void their PTI if they so choose. He said that he would talk with Mr. Rasmussen about this and let me know. Later that same day, I received an email from Mr. Rasmussen requesting that PTI 898-90 be voided (see file). I have sent a request to the Permit Section to void this permit.

Compliance Determination

Based on my inspection, I have determined that they are in compliance with PTI 898-90. I thanked Mr. Groves for his time and left.
