Warren, MI 48092

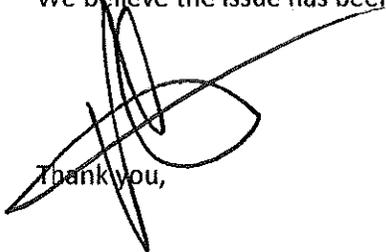

I am writing in response to the violation notice dated October 20,2022 based on your visit August 9, 2022

The violation was for EUTRUCKTRAFFIC SC III state, the permittee shall not operate EUTRUCKTRAFFIC unless the fugitive dust control plan for all plant roadways, the plant yard, all material storage piles, and all material handling operation specified in Appendix B has been implemented and is maintained.

This was an issue due to the hired sweeper truck was delayed on another job , the issue lasted for roughly 3.5 to 4 hours and was corrected as soon as the sweeper truck got there. We have since Realized this has become a bigger issue than we anticipated and have now purchased our own sweeper truck and hired a full time driver to maintain the roadways and parking lots. This insures we have better control over when , where and for how long we need to sweep. And if a issue arrives we are Able to respond in a more timely fashion.

We believe the issue has been resolved

Thank you,

RJ Orozco – Vice President
