Subject: Violation Notice

In response to the violation notice, we have replaced all of the dry filters in our spray booths with new ones. We will maintain and operate the booths and filters in accordance with the administrative rules and existing law. The filters will be replaced on an ongoing and satisfactory basis.

In addition, we will monitor lacquer drum usage and spray time in order to determine if we are in compliance with our volatile organic compound emission limits.

Thank you for your help,

Best regards,

Bill Paige
