Phone: 517-437-4469

### Purpose

I arrived at the facility for an unannounced inspection and asked to meet with Julie Boyce, Executive Director, of Key Opportunities, Inc. Julie was not available at this time, but the person whose name I forgot to write down, was able to help me with my inspection.

### Background

Key Opportunities, Inc. provides vocational services to individuals experiencing physical, mental, emotional disabilities, and/or other vocational barriers. In 1986, they applied for and received a permit for a paint spray booth. On May 16, 2013, this permit voided as the equipment was no longer on site per their requested.

### Compliance Inspection

She informed me that they have not replaced that piece of equipment since it was removed many years ago. She then took me back to where it was and shown me that it had basically been turned into a workbench and storage area.

### Compliance Determination

I determined that they are in compliance with state and federal air regulations.
