Dear Ms. Brown:

SECOND VIOLATION NOTICE

On May 21, the Department of Environmental Quality (DEQ), Air Quality Division (AQD), investigated a complaint of nuisance odors downwind of EQ Detroit, located at 1923 Frederick St., Detroit, Michigan. The purpose of the investigation was to determine EQ Detroit's compliance with the requirements of the federal Clean Air Act; and Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the administrative rules and the conditions of Permit to Install (PTI) number 269-04D, and to investigate a complaint which we received on May 21, 2014, regarding odors attributed to EQ Detroit's operations.

On May 22, 2014, the AQD sent the company a Violation Notice citing a violation of Rule 901(b) discovered as a result of the investigation and requested your written response by June 12, 2014, which was later extended to June 19, 2014, at EQ Detroit's request.

EQ Detroit's response was received on June 19, 2014. After reviewing the letter, AQD has determined that EQ Detroit's response did not adequately address the violation cited in the Violation Notice issued on May 22, 2014. A copy of that letter is enclosed for your reference. AQD is requesting that EQ Detroit resubmit its response to the May 22, 2014, letter. As part of the response, please include information on all wastes processed on May 21, 2014, including waste identification, generator, and times processed.

Please be advised that failure to respond in writing and identifying actions the company will take or has taken to resolve the cited violation may result in escalated enforcement action by the AQD. Please provide the information requested in this letter by July 7, 2014, which corresponds to 14 days from the date of this letter.

Be further advised that issuance of this Violation Notice does not preclude or limit the DEQ's ability to initiate any other enforcement action under state or federal law as appropriate.
