On 4/11/19, I drove to the area of 7751 and 7731 Melville in Detroit. Both addresses appear at the same location/property on Google Earth. This was the site of Recycling Corporation of America (RCA) and both addresses appear in the facility file. When I arrived, the property was vacant and there were no buildings or equipment on site. A check of the LARA website indicates that the business was dissolved in 1997 (see attached).

Wayne County permit 8952 was issued to RCA in 1990 for a demolition debris processing operation with a hammermill, screens, and 7 conveyors. While "canceled" is written on the PTI with a date of 12-20-96, it is still showing as active in the state permit cards database. I will void this permit. A letter will not be sent as the addresses are vacant properties.
