STAFF: Usama Amer	COMPLIANCE STATUS: Compliance	SOURCE CLASS: MINOR
SUBJECT: Inspection of a Minor Source		
RESOLVED COMPLAINTS:		

On February 13, 2014, I attempted to conduct a Scheduled Inspection at GM Research Labs, which used to be located at 1151 Crooks Rd., Troy, Oakland County. The purpose of the inspection was to determine whether the source was existing and operating at the said location. The inspection was also to determine the source's compliance status with the State and Federal Air Quality Rules & Regulations, and the conditions of PTI No. 678-85 for a Degreasing Booth.

Upon arriving at the above location, I discovered that the facility did not exist at the above location any more. The building at the above address is a courthouse building.

No further AQD inspections should be conducted at GM Research Labs. PTI No. 678-85 should be voided, and their name should also be removed from the AQD Files.
