AIR QUALITY DIVISION  
**ACTIVITY REPORT: Off-site Inspection**

N249666405

<b>FACILITY:</b> WILLIAMSTON PRODUCTS INC (NORTH)		<b>SRN / ID:</b> N2496
<b>LOCATION:</b> 845 PROGRESS COURT, WILLIAMSTON		<b>DISTRICT:</b> Lansing
<b>CITY:</b> WILLIAMSTON		<b>COUNTY:</b> INGHAM
<b>CONTACT:</b>		<b>ACTIVITY DATE:</b> 01/05/2023
<b>STAFF:</b> Michelle Luplow	<b>COMPLIANCE STATUS:</b> Compliance	<b>SOURCE CLASS:</b> MINOR
<b>SUBJECT:</b> Self-initiated inspection to document closure of the facility.		
<b>RESOLVED COMPLAINTS:</b>		

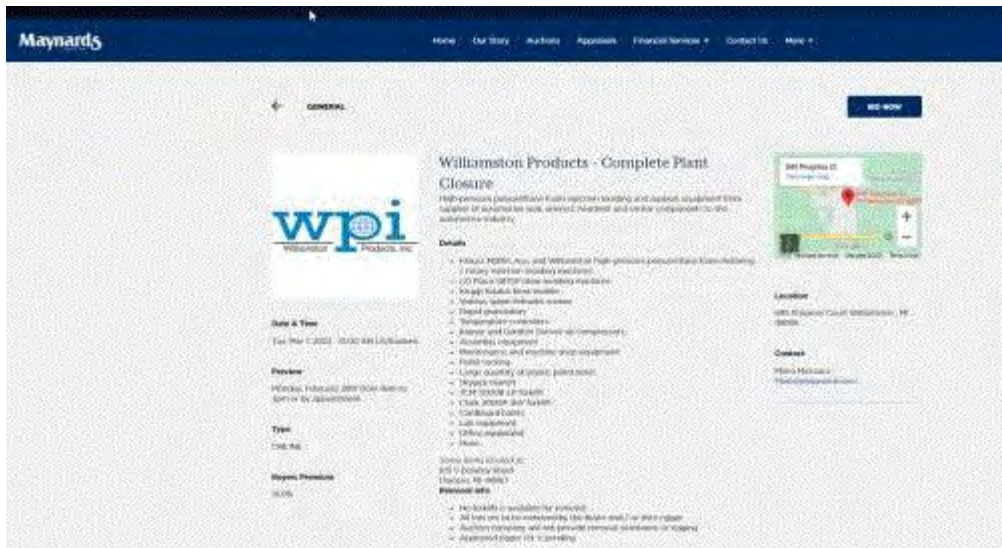

This activity report is being written as a self-initiated inspection after learning via an inspection of Williamston Products at 1560 Noble Rd, Williamston, that both Williamston Products facilities (N1790 - 1560 Noble Rd, Williamston and N2496 - 845 Progress Court, Williamston) have gone out of business in the Fall of 2021 and all assets have been or are currently being liquidated. Maynard's is currently the entity responsible for auctioning off the 845 Progress Court assets.

I reached out to Maynard's about the status of these two facilities and they put me in contact with Mike Gluhanich, Managing Director at Huron Consulting Group (mgluhanich@hcg.com). M. Gluhanich said that Huron Consulting Group served as financial advisors to Williamston Products during its wind-down and liquidation. He stated, "I can confirm that the company is no longer operating; there are no employees and both locations (845 Progress Court and 1560 Noble Road) are vacated. He provided me with contact information for Williamston Products' outside counsel, Charles Bullock, at Stevenson & Bullock PLC (cbullock@sbplclaw.com).

I reached out to Charles Bullock via email, who forwarded it to Elliot Crowder, also of Stevenson & Bullock, PLC (ecrowder@sbplclaw.com). E. Crowder confirmed that Williamston Products (N1790) and Williamston Products (N2496) have been liquidating all assets. He stated that both locations went out of business in the Fall of 2021.

Because both facilities, N1790 and N2496, have liquidated their assets and are no longer in business, permits for both these facilities will be voided and the voided permits will be sent to E. Crowder at Stevenson & Bullock, P.L.C., 26100 American Drive, Suite 50, Southfield, MI 48034. This facility has PTI 914-90 for injection molding.

A follow-up inspection report has been written for the N1790 Williamston Products facility as well.
