RESOLVED COMPLAINTS:		

On 1/7/2016 I conducted an unannounced inspection of this facility. I met with the owner, Mr. Harris.

The facility has PTI #1305-90 for a waste oil-fired furnace. Mr. Harris stated the furnace has worn out and has not been run since 2012 or 2013. He stated the unit started smoking so he shut it down and cut the power cord so no one would run it. He has decided he is not going to replace the oil-fired unit and will utilize his natural gas furnace for heat. We discussed if he does replace the oil-fired furnace in the future and continues to only burn oil generated on site the process would be exempt from the need for an air use permit. He stated he understood.

I informed Mr. Harris PTI #1305-90 will be voided.

A note will be sent to Ms. Sue Thelen in the Permit Section to void PTI #1305-90.

This facility can be removed from the UP District Inspection Database.
