 AIR QUALITY DIVISION
 ACTIVITY REPORT: Scheduled Inspection

N322123886

FACILITY: FRASER AUTO BODY INC		SRN / ID: N3221
LOCATION: 33420 GROESBECK, FRASER		DISTRICT: Southeast Michigan
CITY: FRASER		COUNTY: MACOMB
CONTACT: John Faller , Owner		ACTIVITY DATE: 12/16/2013
STAFF: Usama Amer	COMPLIANCE STATUS: Compliance	SOURCE CLASS: Minor
SUBJECT: Inspection of a Minor Source		
RESOLVED COMPLAINTS:		

On December 16, 2013, I conducted a Scheduled Inspection at Fraser Auto Body Inc. (facility), which is located at 33420 Groesbeck Hwy, Fraser, Macomb County. The purpose of the inspection was to determine whether the source was existing and operating at the said location. The inspection was also to determine the source's compliance status with the State and Federal Air Quality Rules & Regulations, and the conditions of PTI No. 1114-91. Mr. John Faller, Owner, represented the facility during the inspection.

INSPECTION FINDINGS

- The facility is an auto body collision repair and frame shop.
- The facility was issued PTI No. 1114-91 on 1/17/1992.
- PTI No. 1114-91 covers the shops paint booth and related control equipment (filter) and stack.
- The only significant special condition stipulated by PTI No. 1114-91 addressed an hourly (6.7 lb/hr), and annual (0.5 tpy) VOC emission limits.
- The facility keeps purchase record for the different types of paints used in the paint booth. The said record reflects an estimated maximum paint usage of not more than 30 gall per month.
- The facility's operations are in compliance with the provisions of R287(c); therefore, PTI No. 1114-91 may be voided.
