2/19/2021

State of Michigan Department of Environment,
Great Lakes, and Energy

In response to our violation Notice SRN: N5346, Iosco County, Dated February 2, 2021
The action we plan on is to tear the old cyclone dust collector down and put up a new one.
We have had plans for 2 years now to do this but in 2019 we had a wet fall and it could
not be done, and last year with this covid-19 getting a builder and materials just was not
easy. I have talked with Mr. Gary Miller from Miller Construction he is going over the
quote he gave us last year building material has jumped up in price and this will get done
first thing this spring. Now as of right now I can not give you a date as much as I would like to.
I hope to hear back from Mr. Miller this next week and as soon as I know the date when we
can start I would be more than happy to let you know.
We want this done more then you do. Now in the mean time if you feel we need to do
something else we are more than willing to work with you not against you.
Please feel free to get a hold of us either visit or phone or email is fine.
Thank you

A handwritten signature in black ink, appearing to read "Lisa Matthews". The signature is written in a cursive, flowing style.
