Dear Mr. Lyons:

VIOLATION NOTICE

On November 14, 2018, the Department of Environmental Quality (DEQ), Air Quality Division (AQD), conducted an inspection of Lyons Industries, Inc. (Facility), located at 30000 M-62, Dowagiac, Michigan. The purpose of this inspection was to determine the Facility's compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the Air Pollution Control Rules; and the conditions of Renewable Operating Permit (ROP) MI-ROP-N5599-2017.

During the inspection, staff of the AQD observed the following:

Process Description	Rule/Permit Condition Violated	Comments
FGBOOTHSUMMARY	MI-ROP-N5599-2017 Special Condition VI.3	Failure to keep a record of the differential pressure drop readings across each of the particulate filters on a daily basis, during maximum operating conditions.

During this inspection, the Facility was unable to produce daily differential pressure reading records for FGBOOTHSUMMARY.

This is a violation of monitoring/recordkeeping requirements specified in Special Condition VI.3 of ROP MI-ROP-N5599-2017. The Facility should be recording the differential pressure readings, daily, across the fabric filters. These readings should be done at maximum routine operating conditions.
