Dear Mr. Conti:

VIOLATION NOTICE

On January 14, 2015, the Department of Environmental Quality (DEQ), Air Quality Division (AQD), issued Renewable Operating Permit (ROP) No. MI-ROP-N5814-2015 to Asama Coldwater Manufacturing (ACM), located at 180 Asama Parkway, Coldwater, Michigan. Rule 213(3)(c)(i) of Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451), requires a permittee to submit a report at least once every six months of any required monitoring, and all instances of deviations from permit requirements.

At this time, the DEQ has not received ACM's ROP semi-annual certification and deviation report, which was due September 15, 2015. This constitutes a violation of General Condition No. 23 of ROP No. MI-ROP-N5814-2015, and Rule 213(3)(c)(i) of Act 451.

Please submit the report within 21 days from the date of this letter. Each report must contain a certification by the Responsible Official that the statements and information in the report are true, accurate, and complete.

If ACM believes the above observations or statements are inaccurate or do not constitute violations of the applicable legal requirements cited, please provide appropriate factual information to explain your position.

Thank you for your attention to resolving the violations cited above. If you have any questions regarding the violations or the actions necessary to bring ACM into compliance, please call me at the telephone number listed below.
