

DEPARTMENT OF ENVIRONMENTAL QUALITY  
AIR QUALITY DIVISION  
ACTIVITY REPORT: Self Initiated Inspection

N592837625

FACILITY: SPEEDWAY SUPERAMERICA LLC (SSA 6290)		SRN / ID: N5928
LOCATION: 704 US-31, ELK RAPIDS		DISTRICT: Gaylord
CITY: ELK RAPIDS		COUNTY: ANTRIM
CONTACT:		ACTIVITY DATE: 10/13/2016
STAFF: Gloria Torello	COMPLIANCE STATUS: Compliance	SOURCE CLASS:
SUBJECT: Site visit as a follow-up to the September 20, 2016 letter from Practical Environmental Consultants.		
RESOLVED COMPLAINTS:		

The September 20, 2016 letter from Practical Environmental Consultants, Inc. (PEC) included:

While there are no current plans to restart the AS/SVE remediation system, PEC requests that active status of the facility's General Permit to Install be maintained until the MDEQ-RRD issues closure of the currently open LUST release at the facility. Once closure of the release has been issued, PEC will request that the MDEQ Air Quality Division terminate the facility's General Permit to Install.

On October 13, 2016 Gloria Torello of AQD staff visited the site. The building housing the remediation equipment is still in place. The building is approximately 10' x 15'. There are electrical power lines running to the building. Nothing could be heard operating inside the building.
