(CCR, Inc.) located at 2152 Harwood Road, Ionia, Michigan. The purpose of this inspection was to determine CCR, Inc.'s compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the administrative rules; and the conditions of Permit to Install (PTI) number 374-99.

During the inspection, staff observed the following:

Process Description	Rule/Permit Condition Violated	Comments
Eagle Impact Crusher	Rule 336.1201	Failure to obtain Permit to Install

During this inspection, it was noted that CCR, Inc. had installed and commenced operation of unpermitted equipment at this facility. The AQD staff advised CCR, Inc. on June 6, 2014, that this is a violation of Act 451, Rule 201.

A program for compliance may include a completed PTI application for the Eagle Impact Crusher process equipment. An application form is available by request, or at the following website:

Be advised that Rule 201 requires that a permit be obtained prior to installation, construction, operation, reconstruction, relocation, or alteration of any process or process equipment which may be a source of an air contaminant.
