5/31/16

State of Michigan Department of Environmental Quality

Attn: Tyler Salamasick

After receiving the letter from you, we are keeping records of when we water the yard for dust control while crushing, also we have called Derenzo Environmental Services and are working with them to get testing done on new equipment, we will call you when this is getting set up and when they will be out to test. And we will fill the form EQP5756 within 10 days and get it back to you.

If you have any questions please me a call.

Thank you,

Steve Grosso
