SUBJECT: 2016 Site Inspection		
RESOLVED COMPLAINTS:		

SRN: N7089. Riverside Energy Michigan (formerly Atlas, and Chevron)

Location: The facility is located in Antrim County, Jordan Township, T31N, R6W, Section 14, NE, NE.

This is an Antrim gas facility. There is not an AQD permit for this facility. On file with this SRN is a February 11, 2009 letter from Atlas Energy with a determination the facility is exempt from AQD permit requirements under Rule 285(g), and the facility has emissions below significant levels.

In August 2016 Riverside Energy Michigan supplied AQD with 12-month rolling actual emission records for August 2015 thru July 2016. In this 12-month time period, May 2016 was the month with the highest actual NOx emissions which were 12.6 tons, and actual CO emissions in May 2016 were 11.4 tons.

MACES:

Facility Information was reviewed. Operating status was left blank, even though the facility operates this is an Exempt facility.

There is a glycol dehydrator onsite. This is an AQD permit exempt facility. The permittee is responsible for being in compliance with 40 CFR Part 63 Subpart HH, National Emission Standards for Hazardous Air Pollutants From Oil and Natural Gas Production Facilities. The EPA has not delegated this Subpart to MI AQD and the Subpart was not reviewed.

Inspection: AQD staff was on site on June 22, 2016. The one engine on site operated. The engine does not have a catalytic converter. There were no visible emissions observed from the engine stack, no odor was noticed. The engine is loud and the building doors were open. On site are a separator, glycol dehydrator, and iron sponge. Records onsite included Daily Field Report: June 2, 2016 RPM 1163. The engine skid ID was GGS 1018.

AQD's file labels will be updated from Atlas to Riverside Energy Michigan.

In MACES, the facility name was changed to Riverside Energy Michigan
