

DEPARTMENT OF ENVIRONMENTAL QUALITY
AIR QUALITY DIVISION
ACTIVITY REPORT: Scheduled Inspection

N721838739

FACILITY: PAXTON RESOURCES, INC., Big Lake CPF		SRN / ID: N7218
LOCATION: Section 8, CHESTER TWP		DISTRICT: Gaylord
CITY: CHESTER TWP		COUNTY: OTSEGO
CONTACT:		ACTIVITY DATE: 02/24/2017
STAFF: Gloria Torello	COMPLIANCE STATUS: Compliance	SOURCE CLASS: MINOR
SUBJECT: 2017 Site Visit.		
RESOLVED COMPLAINTS:		

On 2/24/17 Gloria Torello, AQD, joined by Chris Bowen of DEQ, visited this facility. The SRN N7218 was identified as an active facility in MACES Report Generator:

- Report Name: Facility Staff Assignments,
- Staff: Torellog,
- EPA Class: Minor,
- View Report.

Directions: The facility is located in Otsego County, Chester Township. The facility is located on the south side of M-32 about ¼ mile west of Shady Woods Lane.

Application/Permit: A review of AQD's Permit Cards shows no PTI was issued at this facility.

MACES:

- MACES includes SRN N7218 for this facility.
- Facility Information was reviewed and the following changes were made:
 - o to Description was added: Antrim gas facility.
 - o Operating Status was changed *operating*.
 - o Gov't Facility Code was changed from blank to: *Not Government Owned*.
- Regulatory Info, Regulatory Summary Subject To was updated to include: Only Exempt Equipment.

MAERS: The file includes information requesting to remove SRN N7218 from MAERS reporting because "This facility has a single lean burn engine with a PTI well below the reporting/significance thresholds for NOx, CO, and VOC."

Inspection: On 2/24/17 DEQ staff visited the site. There is an engine onsite. Visually, the engine is smaller than other engines AQD staff sees at different Antrim gas facilities. The engine was operating. No visible emissions from the engine were noted. The engine skid ID is GCS 4. A clip board near the engine included records for: manifold pressure, battery voltage, RPMs, etc.

There is a glycol dehydrator on site. The glycol dehydrator would be subject to 40 CFR Part 63 Subpart HH, National Emission Standards for Hazardous Air Pollutants From Oil and Natural Gas Production Facilities. The EPA has not delegated to Michigan the implementation and enforcement of Subpart HH for minor sources.

Conclusions: Via onsite inspection and review of the files, it is determined this facility includes exempt equipment only. MACES Regulatory Info, Regulatory Summary Subject To was updated to include: Only Exempt Equipment.
