

**DEPARTMENT OF ENVIRONMENTAL QUALITY
AIR QUALITY DIVISION
ACTIVITY REPORT: Scheduled Inspection**

N726227609

FACILITY: U.S. ARMY CORPS OF ENG-KINCHELOE AFB FIRE TRAIN		SRN / ID: N7262
LOCATION: KINCHELOE AFB FIRE TRAIN AREA, KINROSS		DISTRICT: Upper Peninsula
CITY: KINROSS		COUNTY: CHIPPEWA
CONTACT: Phyllis Hockett, Project Manager		ACTIVITY DATE: 10/29/2014
STAFF: Ed Lancaster	COMPLIANCE STATUS: Compliance	SOURCE CLASS:
SUBJECT: Conducted a scheduled, unannounced inspection.		
RESOLVED COMPLAINTS:		

Around 12:00 PM, I arrived at the Kinross Township Office and met with the Township Manager Mr. Jim Moore, to determine the location of the soil vapor extraction wells identified under PTI No.139-03.

Mr. Moore explained that there were many monitoring wells located on the former Kincheloe Air Force Base. I informed him the ones I was interested in were at the "old" Fire Training Area. He pointed out on a map the area is on the south end of the county air field, off a dirt road and was not easily accessible. He also suggested I talk with Scott Schaefer, of RRD, or Ms. Phyllis Hockett, the US Army Corp of Engineers (ACOE), Project Manager for the Kincheloe AFB.

On October 30th I spoke with Scott who said he believed the monitoring for that site had ended a few years ago and that I should speak to Ms. Hockett. I then called Ms. Hockett who said the site was now considered closed by the ACOE. I asked her to submit a letter requesting the permit be voided, which she responded that she would.
