STAFF: Sydney Bruestle	COMPLIANCE STATUS: Compliance	SOURCE CLASS: MINOR
SUBJECT: Onsite inspection to verify compliance with PTI 37-02 and all other applicable state and federal air quality regulations		
RESOLVED COMPLAINTS:		

On June 27, 2018 I (Sydney Bruestle) performed an onsite inspection at Starship Enterprises located at 1575 Sturgeon Mill Road Vulcan, Michigan. While onsite I met with Lee Heider, the owner. He gave me a tour of the facility.

The facility operates in two buildings. In one building they recycle wood to repair pallets. The other building contains architectural trimming operations, this building has a cyclone to collect wood shavings. The shavings are collected in truck beds (owned by a third party) and hauled offsite. Starship Enterprises operates 5 days a week for 8 hours a day. There are currently 10 employees.

PTI 37-02

This permit covers the wood processing equipment and cyclone separator. The cyclone appeared to be operating properly during my visit, there were no visible emission. The facility monitors the cyclone on a daily basis. Starship Enterprises appeared to be in compliance with PTI 37-02 and all other applicable state and federal air quality regulations.
