N753924389

FACILITY: MAHLE POWERTRAIN LLC		SRN / ID: N7539
LOCATION: 41000 VINCENTI COURT, NOVI		DISTRICT: Southeast Michigan
CITY: NOVI		COUNTY: OAKLAND
CONTACT:		ACTIVITY DATE: 02/27/2014
STAFF: Sebastian Kallumkal	COMPLIANCE STATUS:	SOURCE CLASS: SM OPT OUT
SUBJECT: Onsite Inspection		
RESOLVED COMPLAINTS:		

On February 27, 2014, MDEQ-AQD Staff Sebastian Kallumkal conducted annual inspection at MAHLE Powertrain, Inc. located at 41000 Vincenti Ct. in Novi, Michigan. The purpose of the inspection was to determine facility's compliance with the Federal Clean Air Act; Article II, Part 55, Air Pollution Control of Natural Resources and Environmental Protection Act, 1994 Public Act 451; Michigan Department of Natural Resources and Environment, Air Quality Division (MDEQ-AQD) Rules; and the conditions of Permit-To-Install (PTI) #342-05B.

On February 3, 2014, Ms. Ann Kushner, Mahle Industries, sent an email requesting AQD to void PTI No. 342-05B because all the equipment from this location has been dismantled and removed. Mahle Industries no longer operates at this location.

I arrived at the facility at about 9:45 AM. I met Mr. Pete Pryce, Program Coordinator, Pilot Systems International, LLC. (Phone: 313 320 4302). I introduced myself and stated the purpose of the inspection. Pilot Systems International, LLC. owns the building.

He accompanied me for an inspection of the facility. I observed that all the dynamometers have been removed from the facility and building is advertised for rental.

Conclusion: The facility's PTI No. 342-0 5B can be voided. on 2/27/2014, an email requesting to void this PTI was sent to AQD permit section.
