SUBJECT: Onsite inspection - Unoccupied site, so requested site to be voided through Sue Thelen.		
RESOLVED COMPLAINTS:		

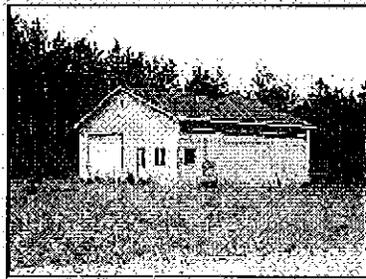

On June 9, 2015 Caryn Owens of the DEQ- AQD conducted a scheduled field inspection at Walldoc Environmental (N7865) located at 16962 Vondra Road, Springdale Township, Manistee County, Michigan. The purpose of this inspection was to determine the facility's compliance with permit to install (PTI) 305-07. The PTI is currently listed as true minor source for particulate matter (PM).

This site was permitted as an animal crematory. The weather conditions were 75 degrees and cloudy with winds approximately 10 mile per hour winds from the west. When DEQ arrived at the site, it appeared to be vacant with overgrown vegetation. There were no signs labeling the property or the building, and the stack location, for the incinerator, had a roof over it. An approximately 200 gallon, unlabeled storage tank was located southwest of the building. Looking in the windows, the main entrance area appeared unoccupied with a "sold" sign on the counter.

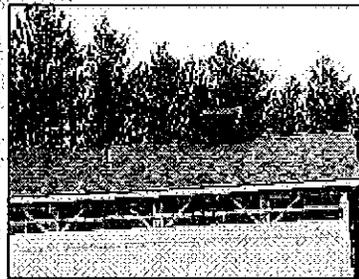

The permit for the facility was issued in December 2007 to Mr. Walter Palmer. DEQ reviewed Manistee County Equalization online records that indicated the property was sold in 2010 to a Mr. Jeffrey Barnett out of South Lyon, Michigan. Based on this information it appears the property is no longer used as an animal crematory and DEQ requests PTI 305-07 to be voided. DEQ took pictures of the site, which are attached.
