Mr. Ron O'Neil, Director of Maintenance  
Capital Region Airport Authority  
4100 Capital City Boulevard  
Lansing, Michigan 48906

SRN: N8035, Clinton County

Dear Mr. O'Neil:

**VIOLATION NOTICE**

Under the State of Michigan's Air Pollution Control law and the federal Clean Air Act, a Renewable Operating Permit (ROP) program has been developed and implemented in Michigan. This permit serves as a mechanism for consolidating and clarifying all air pollution control requirements which apply to the source. Rule 210(6)(b) of the administrative rules promulgated under Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, requires subject sources to submit an application to the Department of Environmental Quality (DEQ), Air Quality Division (AQD), as defined by Rule 211(1)(d).

Based on the promulgation of Rule 974 (R 336.1974) for emissions standards for existing commercial and industrial solid waste incinerators (CISWI), which affects the CISWI located at 4100 Capital City Boulevard, Lansing, an application for a ROP should have been submitted to the AQD by January 2, 2019. To date, the AQD has not received this application. This constitutes a violation of Rule 210(6)(b) which requires that a source not operate any emission units at a source required to obtain a ROP unless a timely and administratively complete application has been received by the DEQ. Because of the failure to submit a timely and administratively complete application in accordance with the requirements of Rule 210(6)(b), this facility has failed to obtain an "application shield."

Please submit a complete application within 60 days from the date of this letter.

If you believe the above observations or statements are inaccurate or do not constitute violations of the applicable legal requirements cited, please provide appropriate factual information to explain your position.
