Granger Electric of Grand Blanc, LLC  
16980 Wood Road  
Lansing, Michigan 48906

SRN: N5991, Genesee County

Dear Mr. Rolf and Mr. Grant:

SUBJECT: Renewal of a Renewable Operating Permit (ROP)

This letter is in reference to your application for renewal of your ROP for Citizens Disposal, Incorporated located at 2361 West Grand Blanc Road in Grand Blanc. This application has been evaluated and the Air Quality Division (AQD) has approved the ROP identified as No. MI-ROP-N5991-2016, pursuant to the delegation of authority from the Department of Environmental Quality (DEQ), following the procedures specified in Rule 214 of Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451). Your copy of the final ROP is enclosed.

This approval is based upon and subject to compliance with all administrative rules promulgated pursuant to Act 451, all general conditions, special conditions and attachments that define the applicable requirements for the activities at this source and all standards and requirements of the federal Clean Air Act, as amended, U.S.C. 7401 et seq. (CAA), consistent with the permit shield provisions in Part A of this ROP. Nothing in this permit shall alter or affect the ability of any person to establish compliance with, or violation of, any applicable requirement through the use of credible evidence to the extent authorized by law. Nothing in this permit shall be construed to waive any defenses otherwise available to the permittee, including, but not limited to, any challenge to the Credible Evidence Rule (see Federal Register: February 24, 1997, Volume 62, Number 36, Page Number 8314) in the context of any future proceeding.

All terms and conditions of this permit that are required under the CAA or any of its applicable requirements are enforceable by the Administrator of the U.S. Environmental Protection Agency (USEPA) and citizens under the CAA. Any terms and conditions based on applicable requirements that are defined as "state only" are not enforceable by the USEPA and citizens pursuant to the CAA. Please review all conditions thoroughly so that you may take the actions necessary to ensure compliance with all of these requirements.

The USEPA had the opportunity to review this ROP during their formal 45-day comment period pursuant to Rule 214(6). This comment period elapsed and no objections were received from the USEPA.

Approval of this ROP does not obviate the necessity of obtaining such permits or approvals from other units of government as required by law.

This ROP shall expire five years from the effective date unless the renewal requirements specified in Rule 217(1)(a) of the Michigan Air Pollution Control Rules are satisfied.

Any document or report required to be submitted as a term or condition of this ROP should be mailed to: District Supervisor, DEQ/AQD, Constitution Hall, 525 West Allegan, P.O. Box 30242, First Floor South, Lansing, Michigan 48909-7742. Please contact Ms. Julie Brunner at 517-284-6789 if you have any questions regarding this permit.

Sincerely,

Brad Myott  
District Supervisor  
Air Quality Division  
517-284-6639
